Set time	35 seconds

CS

A50

Product Number	200152250
Description	Soft & supportive pad material with adhesion and extra protection against thrush
Cartridge	250cc
Color	Green
Set time	35 seconds

SHUGUARD

Firm A60 urethane pad material very suitable for supporting the inner sole. 250cc cartridges fitting in standard caulking guns. SHUGUARD is a supporting pad material which can be used on horses with shoes or barefoot. Thanks to the support on the sole it relieves the pressure on the wall and improves heel growth. Fill up to ground level for optimal support. Set time approx. 35 seconds. Temperature and humidity may affect the performance of this product.

	A60
Product Number	200160250
Description	Supportive pad material with adhesion
Cartridge	250cc
Color	Black
Set time	35 seconds

SHUSIL

Firm but soft silicone pad material in 3 versions A10 (blue) - A20 (transparent) - A30 (purple). 250cc cartridges fitting in caulking guns. Offers protection, shock absorption and support for the hoof. Always use SHUSIL in combination with Shupads! SHUSIL does not contain acids or chemicals. Setting time 4 minutes, depending on weather conditions. Heating up SHUSIL before use speeds up setting time significantly. Temperature and humidity may affect the performance of this product.

SHUFIX

Urethane adhesive that is very suitable for making foal extensions and urethane shoes. Also suitable for retouching or rebuilding heels, making medial/lateral corrections and for smaller hoof repairs. The hoof should be clean and especially dry. 250cc cartridges fitting in caulking guns.

Set time between 30 - 60 seconds, workable after about 5 minutes.
Temperature and humidity can influence the performance of this product.

WHITE

Product Number	150101250
Description	Instant crack repair super fast setting / foal extensions
Cartridge	250cc
Color	White
Set time	30-60 seconds

SHUBOND

Acrylic glue for bonding horseshoes and hoofwall repairs. Available in 150cc and 420cc black and beige. Fits in standard caulking gun using an adapter or just use the Glue-U dispenser for 150 cc cartridges. 420cc only usable with special gun. Bonds steel, aluminium and even urethane shoes. Suitable for repairing large cracks and creating extensions.

Initial set time: 90-120 seconds (open time). Weight-bearing in 4-5 minutes (even in cold conditions). Temperature and humidity may affect the performance of this product. Heating up SHUBOND before use speeds up setting time significantly.

BLACK

Product Number	100102150 / 100102420
Description	Glue-on-shoe / Hoof repair
Cartridge	150cc / 420cc
Color	Black
Set time	4-6 minutes / weight bearing 7-8 minutes. Heated; 120-180 seconds

FAST SET

Product Number	100114150 / 100114420
Description	Glue-on-shoe / Hoof repair
Cartridge	150cc / 420cc
Color	Beige
Set time	150-240 seconds / weight bearing 4-6 minutes. Heated; 90-120 seconds

PRE FIX

Pre Fix is a system to bond a glue-on shoe to the foot just to keep it in place. It is a 2 component super glue which will bond the GluShu to the hoof in seconds. This allows you to do the actual glueing of the shoe with the foot on the ground. Pre Fix is very useful if you have a very nervous horse or a horse that is unable to stand on three legs (laminitis or injury). Pre Fix is no structural glue. It is temporarily only to keep the glue-on shoe in place for the time you need until the actual glue is set. One component is the activator spray, the other component is a transparent gel in a squeeze bottle.

ACTIVATOR

Product Number	490100200
Description	Pre glue GluShu in combination with Pre Fix CA glue
Cartridge	200cc
Color	Transparent
Set time	15 sec

CA GLUE

Product Number	490101150
Description	Pre glue GluShu in combination with Pre Fix Activator
Cartridge	150 gr
Color	Transparent
Set time	15 sec

CARTRIDGE STORAGE

DO'S

- ✓ Protect from freezing.
- ✓ Store ShuBond at approx. 10 °C / 40 °F.
- ✓ Store Poly-urethanes and silicones at a temperature of approx. 15°C / 60°F.
- ✓ Store the products at a dry place.
- ✓ "First in First out" use.
- ✓ Keep cartridges upright.
- ✓ Possibility to use mixing tip as cap.

DONT'S

- ✗ Store the product in constant changing temperatures.
- ✗ Put used cartridges back at the stock.
- ✗ Open the cartridge for a couple of minutes.
- ✗ Leave cartridge open after use.

CARTRIDGE USE

DO'S

- ✓ Check the level of both components.
- ✓ Make sure both canals are free.
- ✓ Before actual use, first press just a little bit in a cup to ensure proper mixing before installing the mixing tip.
- ✓ Make sure the product is mixed properly before applying on the foot.
- ✓ Work in open well ventilated space.
- ✓ Wear protective clothing + gloves.
- ✓ Trim the hoof as normal. Trimming is the most important part of your job.
- ✓ While glueing, keep the foot up until glue is completely cured.(setting time depends on temperature and humidity)

DONT'S

- ✗ Do not smell or breath-in the product directly.
- ✗ Contact with skin. Product might cause allergic reactions.
- ✗ Don't use on wounds or open skin.
- ✗ Use too much glue at once. More glue is more heat.
- ✗ Avoid glue on the sole and frog.
- ✗ Do not heat up cartridges in hot water. Air heating only.

GLUSHU

GLUE-ON HORSESHOE

GluShu is a flexible cuff bonded to a specially designed aluminium horse shoe. This gives the horse a light, hoof supporting, cushioned shoe which eliminates any stress or damage to the horse's hoof and is easy to apply. GluShus are non invasive, completely eliminating the risk of hoof injury due to nailing. Easy and fast to apply.

Uses a fast acting glue. We strongly advise you to use ShuBond glue which is specifically designed to be used with GluShu. The cuff allows the shoe to be glued in stages. No need for any special equipment. Simple sizing system & large range of sizes. No alteration needed. Eliminates the risk of stress when nailing into a thin white line or poor hoof wall. Cushions the feet. The cuff can be used to hold topical medication in place. Prevents further damage to hoof wall.

GLUSHU

MINI GLUSHU (FOAL SHOE)

Mini GluShu is a smaller version of the standard GluShu applicable for as well front as hind feet. This glue-on shoe is a very easy to use glue-on shoe for foals and Shetland ponies. It is a versatile shoe with many options. It can easily be combined with Shufix for any required extension.

For users only applying Mini GluShus we also offer an application kit including all you need to glue on about 5 sets of Mini GluShu.

SHUPADS

The base for silicones and impression materials. These pads are available in 4 different types. M and XL flat, L flat and wedge with frog support. It's easy to cut the pads and fit to every hoof. Use our size chart to determine the size closest to what you need. The high quality urethane material ensures no limitation for the hoof mechanism and keeps pad materials in position.

Experiences proved that Glue-U Shupads are extra durable and can be used for a long period. Every Shupad is designed with self closing injection holes. So filling up the hoofs becomes easier with Glue-U Shupads.

GLUSHU FROG SUPPORT

The Glushu Frog Support offers targeted relief, support and protection for the horse. This insert is designed to address various hoof concerns in both front and hind hooves. These inserts are available in 11 different sizes corresponding the Glushu size.

Applications:

- **Horses with contracted frogs:** Helps expand and support the frog, promoting proper blood flow and function.
- **Sore or bruised hooves:** Protects sensitive tissues and aids in healing.
- **Laminitis recovery:** Provides crucial support during the sensitive recovery process.
- **Hard terrain:** Offers additional comfort and protection against wear and tear.
